

June 2009

Dear OPNS Member

In the light of the recent economic trends, every dollar that can be saved in operations becomes critical to a physician practice. For that reason OPNS is very excited to bring to you the benefits of a recently formed partnership with "Take Charge" Credit Card Processing for your payment processing needs!

OPNS has strategically aligned as a group with a national leader in the credit card processing industry. Utilizing the OPNS group purchasing power this alliance allows us to offer member physicians credit card processing solutions that save costs commonly associated with processing. "Take Charge" is a Michigan company with local representatives that offer competitive processing programs tailored to meet the specific needs of each individual physician's office. "Take Charge" provides processing services for debit and credit cards, check authorizations and above all, the superior customer support you deserve!

The Take Charge credit card processing service adds another great benefit to a full suite of OPNS sponsored vendor products. The group purchasing power of OPNS allows our members to take advantage and reap the rewards of a number of great offerings including employee health care benefits through HealthPlus Insurance, deep discount office supply purchases through Office Max and expertise billing and coding services with Professional Practice Resources (PPR).

We sincerely hope that you will take advantage of this opportunity. The rates are already great but building a larger group can only improve our position to negotiate even better rates for all participants. If you have any questions or would like more information about participating in this or one of our other group purchasing opportunities, please call Sandy Head at 248-682-0088 ext. 118 or Diane Nardon ext. 123.

Sincerely,

A handwritten signature in black ink, appearing to read "Rodger Prong". The signature is fluid and cursive, with a large initial "R" and "P".

Rodger Prong
Executive Director
