

# BEFORE GOING TO THE ER - CALL US FIRST!

Your PCP is the best source for obtaining the most appropriate type of care when a medical need arises. He/she will either schedule you an appointment at their office or direct you to the next appropriate location, specialist, urgent care, or emergency room.

Always make a **follow up appointment** with your PCP (following a discharge from a hospital stay, urgent care, emergency room visit, or skilled nursing facility).

**BEFORE GOING TO THE ER – CALL US FIRST!**

 **PCP Office** 

Contact your primary care physician care for non-life-threatening medical concerns.

 **Urgent Care** 

Go to Urgent Care for a non-life-threatening medical concern and your physician office is closed

 **Emergency Room** 

Go to your nearest emergency room for a life-threatening condition ONLY!
