

REMEMBER!

Your **PCP** is the best source for obtaining the most appropriate type of care when a medical need arises. He or she will either schedule an appointment or direct you to a specialist, hospital or **type of care** that best fits your need.

Remember to always make a follow up appointment with your primary care physician within **7 days** of discharge from an Urgent Care/Emergency Department visit, Hospitalization, or Skilled nursing (rehab) facility stay to:

- Evaluate your current condition and treatment
- Review your medication(s)
- Coordinate further treatment if necessary
